Day 5 - Testing Error Handling and Backend Integration Refinement - Hiperstar

MARKETPLACE BUILDER HACKATHON 2025

DAY 5: Testing Error Handling and Backend Integration Refinement - Hiperstar
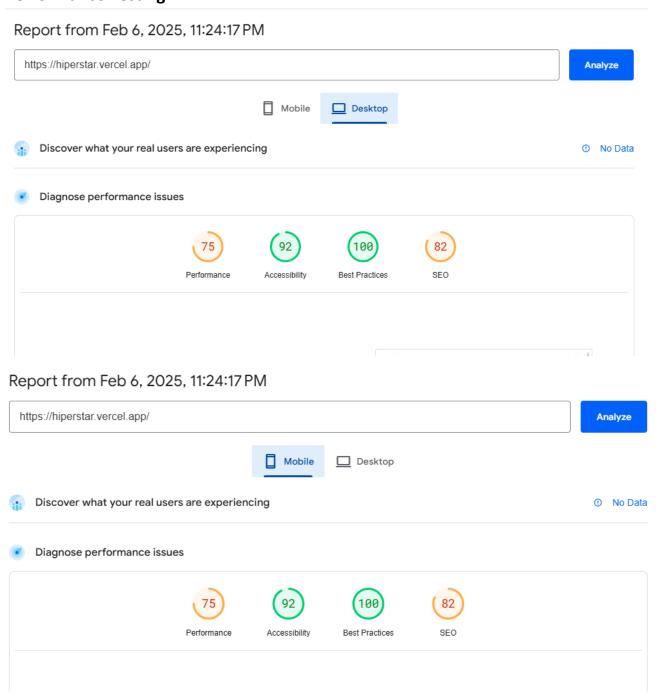

1. Functional Testing:

- ### Tested Core Features:

    All products are displayed correctly after loading, pagination worked correctly showing 10 products per page. Cart operations like add, remove and update are working fine, checked dynamic routing by visiting multiple product page and all details showing correctly.

2. Performance Optimization:

- ### Performance Testing
